

What's That Thang?

What's that thang?

It's not a Frank Booth?

What's That Thang?

How about a hint? “Don’t say please...”

What's that thang?

03/30/2007

Paint Booths

- Paint booths come in different forms.
- Painting operations generate VOC emissions and a variety of HAP emissions.
- Emissions are usually based on mass balance and composition can be verified by reviewing the MSDS' and checking calculations.

- Most paint booths will have a monometer or similar device to monitor pressure drop across the filter media to indicate when it's time to change filters.

Paint Booths cont.

- How many inspectors climb up on the roof of a painting or coating facility?

Paint Booths cont.

- Have you ever used Google Maps or Google Earth to look at a facility before going to the site?
